No.F-25/61/Neuro Radio/IHBAS/2022/10553 Dated: 10.11.26

CORRIGENDUM

With reference to Bid No. **GEM/2026/B/7881222 dated 29.09.2026** in respect of outsourcing of the MRI Machine (3 Tesla) under the PPP Model on a revenue-sharing basis **Last date and time for submission of tender is 21.11.2026 at 2.00 p.m.**

All participating bidder are requested to see the corrigendum details as mentioned below:-

Sr No.	Ref No	Technical Specifications	To be read as
1.		Introduction The quoted model must be launched within last5 years (2017 or later).	Introduction Model quoted must be latest as available with vendor and not older than 2017
2.	2(b)	2 (b). Shim System: 2nd order/High order Shim should be offered as standard.	2(b).Shim System: 2nd order/High order Shim/Passive High Order Shimming/Auto Shimming should be offered as standard.
3.	3(b)	3(b).Gradient System: The gradient should be actively shielded with each axis having independently a slew rate of 200 T/m/s or more and a peak amplitude of 40 mT/m or more (higher slew rate and peak amplitude will be preferred).	3(b) Gradient System: The gradient should be actively shielded in three axes having a slew rate of 150T/m/s or more and a peak amplitude of 35 mT/m or more (higher slew rate and peak amplitude will be preferred). Deep learning algorithm to increase image quality and reduce scan time to be offered as standard
4.		Addition requested System should support deep learning/ AI Based acceleration and reconstruction technique(e.g. Smart Speed Precise/Deep Resolve Boost/ AIR Recon DL) applicable specifically covering Neuro Imaging capabilities in 2D and 3D scans both.	Latest AI and Deep learning technology for improvement of SNR and reduction of scan time to be offered as standard

5.		Addition requested Small FOV scan time reduction like ZoomiT SPACE/Hypercube should be offered	Small tailored FOV diffusion important for study of organs like pituitary and cochlea should be offered as standard
6.	Page no 1 Clause 1	H-1 bidder will be decided on the percentage quoted by the bidder over and above, the minimum criteria of 10% on the prevailing CGHS rates for Non-NABL/NABL MRI procedures/services applicable for Delhi-NCR Circle as per Financial Bid.	H-1 bidder will be decided on the percentage quoted by the bidder over and above, the minimum criteria of 10% on the prevailing CGHS rates for Non-NABL/NABL MRI procedures/services applicable for Delhi-NCR Circle as per Financial Bid depending on accreditation status of the facility.
7.	Page no 9 point 28	The Radiology unit shall be made functional within 120 days from the date of handing over of the site.	The Radiology unit shall be made functional within a maximum of 150 days from the date of handing over of the site.
8.	Page no 15 Clause 4	The Scan Centre will submit an undertaking that the charges quoted are not higher than they have quoted in any Government Hospital.	The Scan Centre will submit an undertaking that the charges quoted are justifiable for this model at IHBAS.
9.	Page no 13 Clause 49	In case of scans of patients admitted at IHBAS, film and a provisional report of all conducted scans must be provided within 60 minutes of the completion of scan.	In cases of routine cases (mentioned by treating team) admitted in IHBAS films and provisional report of all conducted scans must be provided within 180 minutes of the completion of scan..
10.	Page no 17 Clause 3(e)	False report or deviation of report beyond acceptable limit as per standard practices – Rs.25,000/- on first instance and termination of contract subsequently and performance security will be forfeited.	The service provider shall ensure that MRI reports are issued by suitably qualified radiologists and shall maintain a quality assurance system for reporting. Where a potentially significant clinical discrepancy is identified, the reporting radiologist shall promptly review the case, communicate any finding requiring urgent action directly to the treating team, document the communication, and issue an addendum or a corrected report, as appropriate. Disputed or clinically significant discrepancies shall be reviewed by a committee comprising an IHBAS radiologist, a radiologist nominated by the service provider (other than the reporting radiologist), and an independent external radiologist nominated by IHBAS. Based on the committees observations.

			the competent authority of IHBAS may take proportionate action against the service provider after giving the service provider an opportunity to respond. Such action may include termination of the agreement and forfeiture of the security deposit, where warranted and in accordance with the agreement.

It is advised that the above may please be taken into consideration while submitting your bid.

All other terms and condition remain unchanged.
